December 28th, 2018 - make your own hologram not only will you learn holography and the technical elements of this wide ranging science art but also its effects on our perceptual process we will touch on practical applications and insider special skills a hands on practical approach is emphasized by practicing holographers'

'1603 04485 a practical approach to the hamilton jacobi

March 17th, 2020 - we revisit the subject of holographic renormalization for asymptotically ads spacetimes for many applications of holography one has to handle the divergences associated with the on shell gravitational action the brute force approach uses the fefferman graham fg expansion near the ads boundary to identify the divergences but subsequent reversal of the expansion is needed to construct the'
