'Timothy Kusky Google Scholar Citations

April 27th, 2020 - This Cited by count includes citations to the following articles in Scholar: Chinese Academy of Sciences China. Verified email at mail.iggcas.ac.cn. North China craton's collisional suture with the Columbia supercontinent. T. Kusky, J. Li, M. Santosh. "Supercontinent cycle"

April 30th, 2020 - The supercontinent cycle is the quasi-periodic aggregation and dispersal of Earth's continental crust. There are varying opinions as to whether the amount of continental crust is increasing, decreasing, or staying about the same, but it is agreed that the Earth's crust is constantly being reconfigured. "Earth and Moon impact flux increased at the end of the"

March 5th, 2020 - The rate at which impacts produce craters on the Moon is used to calibrate ages in planetary science. Earth should also have received similar numbers of impacts, but many craters have been hidden by erosion, ice sheets, and so on. Mazrouei et al. used infrared images of the Moon to estimate the ages of young lunar craters. See the Perspective by Koeberl. They found that the impact rate'

'Definition Supercontinent Futura Plante

April 23rd, 2020 - Le plus jeune supercontinent unique a été appelé la Pangée par le découvreur de la théorie de la dérive des continents Alfred Wegener. Sciences Actualit''
