'Drug Use and
Addiction

MedlinePlus

May 1st, 2020 -

Drug addiction is
a chronic brain
disease It causes
a person to take
drugs repeatedly
despite the harm
they cause

Repeated drug use
can change the
brain and lead to
addiction The
brain changes

from addiction
can be lasting so
drug addiction is
considered a
relapsing disease
This means that
people in
recovery are at
risk for taking
drugs' 'Poster
