an experimental approach to linguistic representation

February 6th, 2020 - within the cognitive sciences most researchers assume that it is the job of linguists to investigate how language is represented and that they do so largely by building theories based on explicit judgments about patterns of acceptability whereas it is the task of psychologists to determine how language is processed and that in doing so they do not typically question the linguists' **meaning and mental representation mit cognet**
April 28th, 2020 - he proposes that popular accounts of mental representation are inconsistent with the

empirical assumptions of these models which require an account of representation like that involved in mathematical modeling in the final chapter he considers how mental representation might look in a connectionist context a bradford book "*on meaning and mental representation a pragmatic*

*May 16th, 2020 - about this book this book is about language in stem research and about how it is thought about as something that somehow refers to something else not directly accessible often meaning mental representation or conception"***meaning and mental representation**
