Plant functional groups scientometric analysis focused on

December 16th, 2019 - Coordinated distributed experiments an emerging tool for testing global hypotheses in ecology and environmental science Frontiers in Ecology and the Environment 11 147 155 Links Gibson M R Richardson D M amp Pauw A 2012 Can floral traits predict an invasive plant s impact on native plant pollinator communities'

'Discrete Event Abstraction An Emerging Paradigm For

December 23rd, 2019 - CAS as distributed many ruled organizations with little or nothing in the way of central control The aggregate behavior that emerges is too hard to predict with thought experiments or conventional mathematics with the consequence that computer simulation is an indispensable tool for study of CAS'

'Coordinated distributed experiments an emerging tool for

November 9th, 2019 - Read Coordinated distributed experiments an emerging tool for testing global hypotheses in ecology and environmental science Frontiers in Ecology and the Environment on DeepDyve the largest online rental service for scholarly research with thousands of academic publications available at your fingertips'

'Unified data management for distributed experiments A

December 8th, 2019 - The Nutrient Network a coordinated distributed experiment entering its tenth year of data collection has records from over 90 sites worldwide to date In this paper I present lessons learned about data management from this project focusing on such issues as standardization storage updates and distribution of data within the network'

'Virus induced gene silencing as a tool for functional

*February 6th, 2017 - Virus induced gene silencing as a tool for functional analyses in the emerging model plant *Aquilegia columbine* Ranunculaceae floral morphology and is therefore a suitable marker for the identification of silenced flowers in dual locus silencing experiments Flowers showing white sectors also exhibited coordinated transformation"*

Coordinated distributed experiments An emerging tool for

December 17th, 2019 - Coordinated distributed experiments CDEs allow the study of large scale ecological patterns in geographically dispersed areas providing at the same time broad benefits for the participants However the effective involvement of early stage career researchers ECRs confronts major challenges'

'Pushing precipitation to the extremes in distributed

December 20th, 2019 - Coordinated distributed experiments CDEs arrayed across multiple ecosystem types and focused on water can enhance our understanding of differential ecosystem sensitivity to precipitation extremes but there are many design challenges to overcome e g cost comparability standardization'

'Herbivory Network An international collaborative effort

December 15th, 2019 - Herbivory Network An international collaborative effort to study herbivory in Arctic The use of coordinated distributed experiments is increasingly being recognized in ecology and has been Henry H Al C N Carlyle et al Coordinated distributed experiments an emerging tool for testing global hypotheses in ecology and'

'in the neXt DecADe IFTF

December 26th, 2019 - Experiments getting started under the U S Affordable Care Act may reveal models that are both more distributed and more coordinated restaging life goals Already we see our current age cohorts breaking from traditional patterns around everything from retirement to physical

activity creating new strategies to approach aging'

'Finding generality in ecology a model for globally

December 14th, 2019 - Thus global science will be an essential tool for grappling with many of the most important ecological questions Globally distributed experimental science represents an emerging and powerful approach that promises more effective development of a predictive understanding of the impacts of global change on ecosystems'

'Complexity in Climate Change Manipulation Experiments

December 23rd, 2019 - Climate manipulation experiments are one major tool to explore the ecological impacts of climate change Until now precipitation experiments have dealt with temporal variability or extreme events such as drought resulting in a multitude of approaches and scenarios with limited comparability among studies'

'Coordinated Distributed Experiments CDEs Applied to

November 14th, 2019 - In ecology and environmental science ?few samples many factors? is also one of the difficulties blocking the test of scientific hypotheses To tackle this problem in those fields ?Coordinated Distributed Experiments CDEs ? was proposed as an operational tool for hypothesis testing"Roy Turkington Home UBC Botany

December 20th, 2019 - Coordinated distributed experiments an emerging tool for testing global hypotheses in ecology and environmental science Frontiers in Ecology and the Environment 2012 DOI 10 1890 110279 published on line"**Distributed Tracing Exploring the Past Present and**

February 19th, 2018 - Distributing tracing is increasingly seen as an essential component for observing distributed systems and microservice applications There are several popular open source standards and frameworks like the OpenTracing API and OpenZipkin The basic idea behind distributed tracing is relatively'

'EN Eur Lex

May 25th, 2019 - research institutions to make full use of the emerging distributed forms of research activity namely e Science based upon international research networks made possible by the 1 Information and Communication Technologies 2 M B Hall The scientific renaissance 1450 1630

ISBN 0486281159" **A Road Map for 21st Century Genetic Restoration Gene Pool**

November 23rd, 2019 - A Road Map for 21st Century Genetic Restoration Gene Pool Enrichment of the Black Footed Ferret pdf'

'What have we learned from global change manipulative

July 23rd, 2015 - Although China has the largest population in the world a faster rate of warming than the global average and an active global change research program results from many of the global change experiments in Chinese terrestrial ecosystems have not been included in global syntheses Here we specifically analyze the observed responses of carbon C'

'The Potential Trajectory of Carbapenem Resistant

January 31st, 2017 - The Potential Trajectory of Carbapenem Resistant Enterobacteriaceae an Emerging Threat to Health Care Facilities and the Impact of the Centers for Disease Control and Prevention Toolkit In each of the aforementioned experiments'

'Rapid Synthesis of Multi Model Simulations for

November 18th, 2019 - tool suite to create a model based integration approach that allows for rapid synthesis of complex HLA based simulation environments I INTRODUCTION

Evaluation of emerging command and control C2 concepts necessitates a sophisticated modeling and simulation infrastructure that allows for the"Coordinated distributed experiments an emerging tool for

November 21st, 2019 - Coordinated distributed experiments an emerging tool for testing global approach Considering the global nature of many environmental issues a new collaborative approach

which we call coordinated distributed experiments Coordinated distributed experiments an emerging tool for testing global hypotheses in ecology and'

'The need for coordinated transdisciplinary research

March 25th, 2019 - A nice example of a distributed experiment is the NutNet project which integrates a distributed experiment globally Borer et al 2013 For pollinators such experiments should be easy to perform by reporting occurrence data visitation rates to plants or pollination success using common protocols'

'Hole Avoidance Experiments in Coordinated Motion on Rough

November 27th, 2019 - Hole Avoidance Experiments in Coordinated Motion on Rough Terrain Vito Triannix Stefano Noly and Marco Dorigox xIRIDIA Universit'e Libre de Bruxelles Bruxelles Belgium yInstitute of Cognitive Sciences and Technologies CNR Roma Italy Abstract In this paper we study coordinated motion in a swarm robotic system called a swarm bot"

'Virus induced gene silencing as a tool for Plant Methods

December 25th, 2019 - The lower eudicot genus *Aquilegia* commonly known as columbine is currently the subject of extensive genetic and genomic research aimed at developing this taxon as a new model for the study of ecology and evolution The ability to perform functional genetic analyses is a critical component of this development process and ultimately has the'

'Coordinated VANET experiments

November 14th, 2019 - However in the currently prevailing free flow experiments the intended situation for the application may not occur in sufficient frequency to provide statistically significant results In this paper we argue that the existing experimental approach should therefore be complemented with coordinated experiments'

'Open top chambers for temperature manipulation in taller

December 21st, 2019 - This design is a valuable tool for examining the effects of in situ warming on

understudied simple and low maintenance design of these taller stature chambers encourages their use in conjunction with globally coordinated ecological experiments such as Coordinated distributed experiments An emerging tool for testing global'

'Towards more predictive and interdisciplinary climate

October 28th, 2019 - Despite great advances experiments concerning the response of ecosystems to climate change still face considerable challenges including the high complexity of climate change in terms of environmental variables constraints in the number and amplitude of climate treatment levels and the limited scope of responses and interactions covered"Coordinated Ocean ice Reference Experiments COREs

December 22nd, 2019 - Coordinated Ocean ice Reference Experiments COREs are presented as a tool to explore the behaviour of global ocean ice models under forcing from a common atmospheric dataset We highlight issues arising when designing coupled global ocean and sea ice experiments such as dif?culties formulating a consis'

'Investigating animal activity patterns and temporal niche

December 15th, 2019 - To address this gap we suggest coordinated distributed experiments to capture sufficient camera?trap data across a range of anthropogenic stressors and community compositions This will facilitate a standardized approach to assessing the impacts of multiple variables on species? behaviours and interactions'

'THE DISTRIBUTED VEHICLE MONITORING TESTBED

November 27th, 2019 - performed in AI research An examplr of such a tool the Distributed Vehicle Monitoring Testbed will bc presented The testbed simulates a class of dist ributed knowledge based problem solving systems operating on an abstracted version of a vehicle monitoring task This presentation emphasizes'

'Coordinated approaches for studying long-term ecosystem

December 19th, 2019 - Turkington R 2013 Coordinated Distributed Experiments an emerging tool for testing global hypotheses in ecology and environmental science Front Ecol Environ 11 147-155

Golodets C Sternberg M Kigel J Boeken B Henkin Z Seligman NG Ungar EU 2013 From desert to Mediterranean range'

'2013 publications Forest Ecology Lab

December 15th, 2019 - Coordinated distributed experiments An emerging tool for testing global hypotheses in ecology and environmental science Frontiers in Ecology and the Environment 11 147-155 Frelich L E 2013 "The handbook for standardized field and laboratory

December 25th, 2019 - First data-model comparisons can be used as a tool to directly test hypotheses where observations are compared directly against model output Second experimental and or observational data can be used as for model calibration tool where parameters and predictor variables measured at a site or within a treatment are used to calibrate the model'

'Prof Marcelo Sternberg The George S Wise Faculty of

December 17th, 2019 - I am an experimental ecologist interested on the effects of global changes on natural plant communities Within this topic I address questions spanning plant community ecology plant population ecology evolution and ecosystem functioning"Knapp Colorado State University

December 21st, 2019 - Coordinated Distributed Experiments an emerging tool for testing global hypotheses in ecology and environmental science Frontiers in Ecology and the Environment 11 147-155 Irschick D J C Fox K Thompson A Knapp L Baker and J Meyer 2013 Functional ecology integrative research in the modern age of ecology'

'Coordinated distributed experiments an emerging tool for

December 23rd, 2019 - Considering the global nature of many environmental issues a new collaborative approach which we call coordinated distributed experiments CDEs is needed that will control for both spatial and temporal scale and that encompasses large geographic ranges'

'Coordinated Distributed Experiments an Emerging Tool for

November 19th, 2019 - Coordinated distributed experiments an emerging tool for testing global hypotheses in ecology and environmental science Lauchlan H Fraser¹ Hugh AL Henry²

Cameron N Carlyle¹ 3 Shannon R White⁴ Carl Beierkuhnlein⁵ James F Cahill Jr⁴ Brenda B Casper⁶ Elsa Cleland⁷ Scott L Collins⁸ Jeffrey S Dukes⁹ Alan K Knapp¹⁰

'Collaborative Projects Unleashing Early Career Scientists

December 11th, 2019 - Collaborative research projects exclusively targeted to early career researchers ECRs have been initiated in Europe So far the first two collaborative projects have united more than 80 ECRs We describe the structure and benefits of such initiatives for the ECRs and highlight the positive influence on the whole scientific community'

'Methods to test the interactive effects of drought and

December 26th, 2019 - Although the experiments are ongoing as of 2016 we use past tense language for clarity Additionally because the ecological outcomes are still emerging our purpose here is to report on the methodology and the multi?faceted physical responses we observed to the experimental treatments'

'Collective intelligence Wikipedia

December 20th, 2019 - Collective intelligence CI is shared or group intelligence that emerges from the collaboration collective efforts and competition of many individuals and appears in consensus decision making The term appears in sociobiology political science and in context of mass peer review and crowdsourcing applications'

'Group evolution Emerging synergy through a coordinated effort

October 11th, 2019 - Results of preliminary experiments show that our algorithm is superior to other techniques that are commonly being applied Categories and Subject Descriptors I m Computing Methodologies Miscellaneous General Terms Algorithms Keywords Evolutionary Algorithms Group Evolution Synergy Coordinated Effort 1"Coordinated distributed experiments An emerging tool for

*November 21st, 2019 - Coordinated distributed experiments An emerging tool for testing global hypotheses in ecology and environmental science In Frontiers in Ecology and the Environment 2013 Vol 11 No 3 pp 147 155"***The need for coordinated transdisciplinary research**

November 7th, 2019 - The need for coordinated transdisciplinary research infrastructures for tunately these are emerging rapidly Some of these mation distributed across many different nodes giv ingrobustnesstotheweb Inecology wealreadyhave pioneer distributed networks performing common'

'FIRE online interoperability and performance test tools

December 17th, 2019 - Final release of the testing tool source code and integrated instance into the F Interop platform This deliverable will be accompanied of a video demonstration of the tool and a short written document focusing on how users can use the testing tool for running the WoT interoperability tests"**Distributed Heterogeneous Cloud Computing Infrastructure**

December 2nd, 2019 - Distributed Heterogeneous Cloud Computing Infrastructure for Scalable Collaborative Sensor Centric Grid Applications Geoffrey C Fox School of Informatics and Computing and Community Grids Laboratory Indiana University Bloomington IN 47408 USA'
