'Neuroendocrine tumor

April 30th, 2020 - Neuroendocrine tumors (NETs) are neoplasms that arise from cells of the endocrine and nervous systems. They most commonly occur in the intestine where they are often called carcinoid tumors, but they are also found in the pancreas, lung, and the rest of the body. Although there are many kinds of NETs, they are treated as a group of tumors because the cells of these neoplasms share common'
