practice problems for ACT Math'**

**'Math Dyal Similar Triangles**

**April 26th, 2018 - When I taught 7th grade  
five years ago it seems like every problem  
could be solved with a proportion We  
spent a lot of time talking about matching  
up units and ratios when solving a  
proportion then we would come to similar  
triangles and the students wouldn't know  
what to do so they would set up their  
proportion all willy nilly" *IXL Geometry***
