'**agile methods for**

open source safety

critical software

April 12th, 2020 -

this paper

challenges the

assumption that

agile methods are

inappropriate for

safety critical

software development

agile methods are

flexible enough to

encourage the right

amount of ceremony

therefore if safety

critical systems

require greater

emphasis on

activities like

formal specification

and requirements

management then an

agile process will

include these as

necessary

activities'
