'ballades chopin

May 27th, 2020 - Frédéric Chopin's four ballades are single movement pieces for solo piano posed between 1831 and 1842 they are considered to be some of the most challenging pieces in the standard piano repertoire the term ballade was used by Chopin in the sense of a balletic interlude or dance piece equivalent to the old Italian ballata but the term may also have connotations of the medieval heroic''
