November 21st, 2010 - This question may seem very elementary to many here but I ve been trying to find some kind of chart that will tell me what the starting diameter of a rod should be for threading with any given size die For example I learned the hard way that a 1 4 20 die really struggled when I tried to thread a'
'interference fit shaft spline Gear amp Pulley engineering

May 2nd, 2018 - brian823 I don t believe any of the spline types or tolerance classes described in ANSI B92 1 involve an actual interference fit The major diameter fit splines are intended to create a close tolerance sliding fit between the tips of the external teeth and the roots of the internal tooth spaces to ensure accurate

radial positioning'
