how to perform a waveguide calibration keysight

**June 3rd, 2020 - must match the calibration frequency range
can be as wide as the bandwidth of the cal kit can be just part of
the bandwidth of the cal kit however an easy way to do this is to
use the lookup table feature 1 click measure then define
measurement then lookup table select x band waveguide then
click apply'**

'calibration

June 6th, 2020 - as an example a manual process may be used for
calibration of a pressure gauge the procedure requires multiple steps
citation needed to connect the gauge under test to a reference
master gauge and an adjustable pressure source to apply fluid
pressure to both reference and test gauges at definite points over the
span of the gauge and to pare the readings of the two'
