'2 port network problem All About Circuits

October 11th, 2018 - Hello again i need help understanding how to approach this problem we need to find the output resistance R_o my first approach was to use Z parameters and more specifically only the Z_{22} parameter port 2 is the one where R_o is so i set i_1 the current from the source V_s to zero effectively disconnecting V_s and then solving for v_2 i_2 my answer in this method is incorrect'
