May 9th, 2018 - Introduction Partial differential equations

PDEs are equations that involve rates of change with respect to continuous variables The position of a rigid body is specified by six parameters but the configuration of a fluid is given by the continuous distribution of several parameters such as the temperature pressure and so forth'

'Parabolic partial differential equation Wikipedia

May 8th, 2018 - A parabolic partial differential equation is a type of partial differential equation PDE Parabolic PDEs are used to describe a wide variety of time dependent phenomena including heat conduction particle diffusion ocean acoustic propagation in a certain approximation and pricing of derivative investment instruments'
