Lab Igneous Rocks Wenatchee
Valley College

September 16th, 2018 - Lab
Procedures In this lab you
will identify the minerals
in each rock determine the
igneous composition of the
rock name its texture take
a photograph of it and
interpret its origin To
understand and identify
igneous rocks you cannot be
shy about addressing the
rocks Remember what you
learned in the minerals lab
you have to do more than
look at the samples You
need to Pick up each'

**'Igneous Rock Lab Igneous
Rock Rock Geology**

October 6th, 2018 - Igneous
Rock Lab Lab Introduction
The term 'Igneous' is
derived from a Greek word
meaning 'from fire'
Igneous rocks are those
formed from the cooling
solidification and
crystallization of molten
magma or lava These rocks
are classified based on
their color and texture
Color is usually considered
to be light or dark Of
course the color is the
result of the composition
